Integrated Tools for Dynamic Scenario Building,

Collaborative Response Planning & Training

International Workshop on Collaborative Practices and Technologies for Critical Infrastructure Resilience,

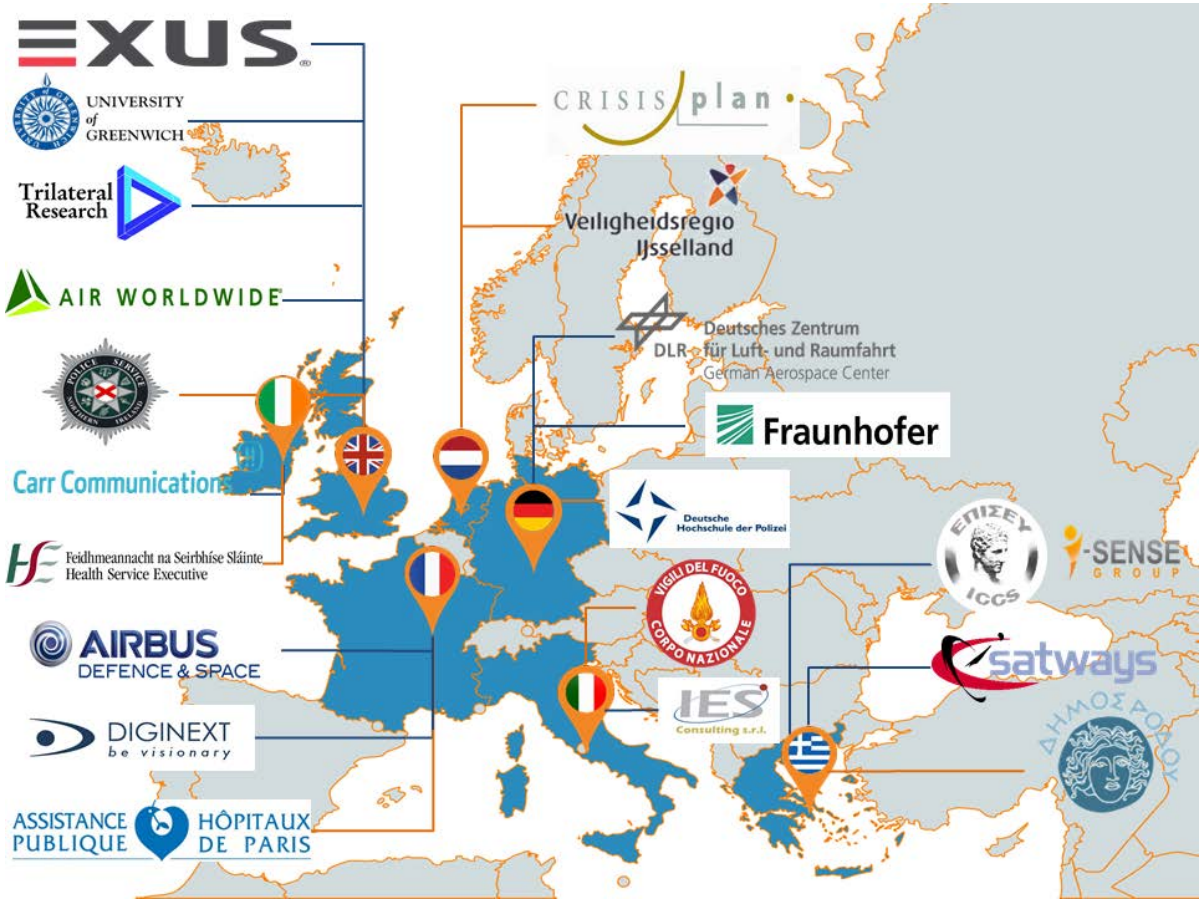
CIRINT.NET SICt Friday, 2 October 2020

This project has received funding from the European Union's Horizon 2020 research and innovation programme under grant agreement No 740627.

Agenda of the Telco

1. IN-PREP Facts & Figures and Challenges/Motivation
2. IN-PREP Objectives
3. IN-PREP Outcomes (Technology and Policy)
4. IN-PREP Implementation

IN-PREP Fact & Figures



SEC-01-DRS-2016: *INTEGRATED TOOLS FOR RESPONSE PLANNING AND SCENARIO BUILDING (IA)*

TOTAL FUNDING: *€ 9,580,781.25*

EC REQUESTED FUNDING: *€ 7,999,556.25*

TRAINING PROGRAMME:

3 TTXS & 3 FSXS

CONSORTIUM: *20 PARTNERS FROM 7 MS (7 END USERS, 6 SMES AND 3INDUSTRIES, 3RTOS AND 1 UNI)*

IN-PREP

IN-PREP Impacts

- With IN-PREP, **losses** from natural, accidental and man-made disasters are reduced through better societal resilience and improved disaster risk management
  - improving the perception of disaster-related risks (*all-hazard approach*)
  - strengthening integrated disaster risk reduction approaches (*transboundary concept: cross-sector, cross-border, cross-agency, cross-hierarchy*)
  - technological tools and solutions to support practitioners in all operational phases (*prevention-preparedness-response-recovery*)

IN-PREP Solution

Overarching Goal: “is to upgrade collaborative response planning and training for transboundary disasters and causes of crises.”

- Dynamic Scenario Building
- Collaborative Response Training

De onrust wordt daardoor nog groter, mensen verlaten in paniek het gebied waardoor chaos op de wegen ontstaat. Op social media wordt een vergelijking gemaakt met de watersnoodramp uit 1953.

In de St. Anna Kapel (Broederweg 10) zijn op dit moment 120 gasten aanwezig. Onder de gasten bevinden zich internationale studenten uit verschillende landen: Duitsland, België, Zuid-Afrika, Peru en Brazilië. Als voorzorgsmaatregel heeft de universiteit de conferentie beëindigd. Veel studenten lopen verdwaald rond en weten niet waar ze naartoe moeten.

Grote groepen mensen dreigen zichzelf te gaan evacueren en willen onmiddelijk het gebied verlaten. Veel vragen over waarom de gemeente helemaal niks doet en waarom de hulpdiensten niet zichtbaar zijn.

IN-PREP Handbook (https://www.in-prep.eu/handbook_draft/)

Handbook

Chapter	Content
Preface	■ Online version of the handbook ■ Making use of good examples ■ Handbook principles
Introduction	■ Summary and main messages ■ Benefits of using the handbook ■ „How to read/use“ the handbook
Guidance Section	■ *putting the handbook into context:* ■ Specificities of transboundary crises ■ Existing arrangements (competences and guidelines at EU and international level) ■ Good practices (national and bi-/tri-lateral examples) ■ Existing efforts on standardising vocabulary and symbology ■ Existing tools to facilitate transboundary crisis management
Policy makers	■ Relevance of transboundary crises ■ Assessing transboundary crisis management capacity ■ Enhancing transboundary crisis management capacity

IN-PREP Handbook (https://www.in-prep.eu/handbook_draft/)

Handbook

Chapter	Content
Operational Community	■ Assessing transboundary crisis management capacity ■ Enhancing transboundary crisis management capacity ■ Technical support to enhance collaboration (links with IN-PREP solutions)
General public	■ Why transboundary training? ■ How can I be involved?

Recommendations and Roadmap	■ Recommendations for different actors:
	  ■ Policy makers
	  ■ Operational community
	■ Recommendations beyond the scope of the project

Feedback section	■ Feedback and additions through the online platform

IN-PREP Handbook (https://www.in-prep.eu/handbook_draft/)

Handbook content:

Operational Community

- Assessing transboundary crisis management capacity
- Enhancing transboundary crisis management capacity
- Technical support to enhance collaboration (links with IN-PREP solutions)

Remaining challenges/ open questions related to understanding current processes:

How are transboundary crisis management capacities (currently) assessed?

What are potential action points for enhancing this capacity?

Which additional guidance documents/good practices exist?
